

WEEK 19: CYBER HYGIENE AND SAFE INTERNET PRACTICES

Safe Internet Practices includes:

- **Safe Browsing**
Safe browsing includes visiting trusted websites and avoiding suspicious downloads or pop-ups.
- **Updating Software**
Software updates fix bugs and security vulnerabilities, helping systems stay protected from attacks.
- **Avoiding Suspicious Downloads**
Downloading files only from trusted sources helps prevent malware infections.
- **Using Security tools**
 - **Antivirus**
Antivirus software detects and removes harmful programs to keep systems secure.
 - **Firewall**
Monitors and filters incoming and outgoing traffic
 - **IDS/IPS**
Intrusion Detection System (IDS) and Intrusion Prevention System (IPS)
